Comments

The original KStN table shows the Platoon NCO in each Rifle Platoon as being from Position Group O. This is not something I have seen in any other Rifle Company KStN table and I've assumed it to be an error, so have put the NCO in Position Group G in the above.

It is not clear from the table which men in the Heavy Machine Gun Platoons were to be armed with the four machine pistols previously authorised for the MG team NCOs. I've shown them all with the crews of the two reinforcing guns, though they could just as easily be swapped with one rifle in each of the four main MG teams.
